TITLE INDEX

A

Accidental swallowing of a gold cast crown during orthodontic tooth separation

O.P.Kharbanda / Poornima Varshney / Usha Dutta, No. 4, p. 289

Acidulated phosphate fluoride treatment and formation of caries-like lesions in enamel: Effect of application time

Franklin Garcia-Godoy / M. John Hicks / Catherine M. Flaitz / Joel H. Berg, No. 2, p. 105

A comparative study between the double-headed toothbrush and the single headed toothbrush in plaque removal efficiency

Ibrahim Almajed, No. 1, p. 19

Actisite (tetracycline hydrochloride periodontal fiber) not a product for the pediatric dentist

Paul N. Baer, No. 2, p. 147

B

C

Class II malocclusion in mixed dentition

Brock H.M. Rondeau, No. 1, p. 1

Clinical evaluation of the retention and wear of a light-cured pit and fissure glass ionomer sealant

Martha Aranda / Franklin Garcia-Godoy, No. 4, p. 273

Clinical management of ectodermal dysplasia

Hassan Bakri / Robert Rapp / George Hadeed, No. 3, p. 167

Comparison of treatment results with the edgewise and the Begg approach

Orsalia Papaioannou-Maragou / Angeliki Papaioannou, No. 1, p. 27

Compound composite odontoma associated with an impacted cuspid

Barry M. Owens / Norman J. Schuman / Timothy A. Pliske / William L. Culley, No. 4, p. 293

Congential hypodontia: A pedigree and dermatoglyphic study

Metin Atasu / Serap Akyuz, No. 3, p. 215

CT display of multiple dentigerous cysts of the mandible: A case report

Melahat Ogutcen Toller / Murat Sipahier / Aydan Acikgoz, No. 2, p. 135

D

Dental and craniofacial findings in a child affected by glycogen storage disease type III

Tiziano Baccetti / Lucina Pierleoni / Luca Filippi / Maria Alice Donati / Isabella Tollaro / Enrico Zammarchi, No. 1, p. 55

Dental manifestations of inbreeding

Fethi Maatouk / Driss Laamir / Kamel Argoubi / Hichem Ghedira, No. 4, p. 305

Direct bonding brackets: Unfilled versus unfilled/filled resins

Luiz Carlos Neto Pacheco Barreto / Orlando Chevitarese /Marco Antonio Almeida, No. 1, p. 31

E

Early loss of pit and fissure sealant: a clinical and SEM study

Masato Futatsuki / Kazumi Kubota / Yi-Chan Yeh / Kitae Park / Stephen J. Moss, No. 2, p. 99

Enhancement of fissure sealant penetration and adaptation: The enameloplasty technique

Franklin Garcia-Godoy / Fernando Borba de Araujo, No. 1, p. 13

Evaluation of fissure sealants retention following four different isolation and surface preparation techniques: Four years clinial trial

N.A. Lygidakis / K.I. Oulis / A. Christodoulidis, No. 1, p. 23

F

Fluoridated drinking water on maturation of permanent teeth at age 12

Lisa Campagna / Anthi Tsamtsouris / Katerina Kavadia, No. 3, p. 225

G

Gluma bond strength to the dentin of primary molars

Fouad S. Salama, No. 1, p. 35

H

How to achieve comprehensive teamwork in your pediatric dental office through total quality management (TQM)

Edward S. Nacht, No. 4, p. 247

Hyoid bone and atlas vertebra in established mouth breathers: A cephalometric study

Raiender Kumar / S.S. Sidhu / O.P. Kharbanda / D.A. Tandon, No. 3, p. 191

I

Interceptive approach to tooth eruption abnormalities: 10 year follow-up of a case

Tizanio Bacetti, No. 4, p. 297

Intraoperative and postoperative physiological monitoring practices by pediatric dentists

Warren Aka / Joseph R. Jedrychowski, No. 2, p. 91

Inverted impaction of second premolar: Two case reports

Youichi Kuba / Kunihisa Taniguchi / Hiroko Kuboyama / Wataru Motokawa / Raymond L. Braham, No. 3, p. 205

J

K

L

Laser vs visible-light cured composite resin: An *in vitro* shear bond study

B.M. Shanthala / A.K. Munshi, No. 2, p. 121

M

Measurement of masseter and temporalis muscle thickness using ultrasonographic technique

Neeta T. Prabhu / A. K. Munshi, No. 1, p. 41

Microbiological assessment of dentin stained with a caries detector dye

Mary Ann Zacharia / A.K. Munshi, No. 2, p. 111

Modulation of occlusal plane during puberty

Wilma Alexandre Simoes, No. 4, p. 259

N

O

Occlusal plane: A clinical evaluation

Wilma Alexandre Simoes, No. 2, p. 75

Oral findings, treatment and follow-up of a case with major aphthous stomatitis (Sutton's Disease)

Leman Yel / Ilhan Tezcan / Hatice Hasturk / Fugen Ersoy / Ozden Sanal / Ezel Yavuzyilmaz, No. 1, p. 49

Orthodontic goniometry: A control technique after P. Planas transversal expansion method: Neuro-occlusal rehabilitation: Part 3

Michel Chateau / Carlos Salvador Planas, No. 3, p. 177

Orthodontic goniometry: Detection and measurement of apical movement: Part 1

Michel Chateau / Carlos Salvador Planas, No. 2, p. 83

Orthodontic goniometry: Results: Part 2

Michel Chateau / Carlos Salvador Planas, No. 2, p. 87

P

Palatal expansion with a total denture

A. Nil Altay / Ilken Kocadereli / Gulay Atar, No. 4, p. 251

Periodontal findings in cases of incisor cross-bite

Nasser Al-Jasser / Hayder Hashim, No. 4, p. 285

Peripheral adenomatoid odontogenic tumor: Birth of a term

Taha Unal / Erdogan Cetingul / Tayfun Gunbay, No. 2, p. 139

Posterior bite raising effects on a primary anterior crossbite case

Kuniaki Miyajima / Shinobu Imamura / Yuuji Fuwa / Shoji Nakamura / Kunishige Nagahara / Tomoyuki Tsuchiya / Kazuo Kurosu / Tetsuo Iizuka, No. 2, p. 131

Preparation of feeding obturators for infants with cleft lip and palate

Oliver O. Osuji, No. 3, p. 211

Process or product: How do you run your practice?

George E. White, No. p. 65

Q

R

Radiographic diagnosis of the normal alveolar bone height in the primary dentition

Enrique Bimstein, No. 4, p. 269

Resin adhesion to the primary enamel: Influence of light—irradiation times

Yumiko Hosoya, No. 3, p. 185

Retention of orthodontic bands with three different cements

Ilken Kocadereli / Semra Ciger, No. 2, p. 127

Root canal treatment of primary molars with infected pulps using calcium hydroxide as a root canal filling
Riitta Rosendahl / Anne Weinert-Grodd, No. 4, p. 255

S

Sexual homicide with HIV in a Florida dental office?
Leonard G. Horowitz, No. 1, p. 61

Shear strength of ceramic brackets bonded to etched or unetched enamel
Franklin Garcia-Godoy / Steve Martin, No. 3, p. 181

Slime production by coagulase-negative Staphylococci in the infected pulps
Tayfun Alacam / Alev Alacam / Nedim Sultan / Oya Bala / Altan Gungo / Semiha Ozkan, No. 2, p. 117

Subgingival bacteria in a case of prepubertal periodontitis, before and one year after extractions of the affected primary teeth
Diana Ram / Enrique Bimstein, No. 1, p. 45

T

The relationship between dental caries in the primary dentition and anti *S. mutans* serum antibodies in children with Down's Syndrome
T. Morinushi / D. E. Lopatin / H. Tanaka, No. 4, p. 279

Treatment of facial asymmetry with a functional appliance: A case report
Tuba Tortop / Sema Yuksel, No. 3, p. 173

U

Ultrasonographic observation of the circumoral musculature: An *in-vivo* study
Neeta T. Prabhu / A.K. Munshi, No. 3, p. 195

V
